SUMMARY

Mid-level Full Stack Developer with proven ability to deliver end-to-end features for systems. Designed and deployed production-ready RESTful APIs for freelance clients, implementing role-based access control, Dockerized environments, and CI/CD pipelines for reliable operations. Skilled in clean, maintainable code, performance optimization, and Docker orchestration. Ready to apply full-stack expertise to build reliable, scalable systems.

EDUCATION

University of Science and Technology of Southern Philippines – Philippines <i>Bachelor of Science, Information Technology</i>	Aug 2020 - Jul 2024 <i>Cagayan De Oro City, Philippines</i>
---	---

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript, TypeScript, PHP, Node.js, Express.js, Laravel, CodeIgniter, React.js
- **Database & APIs:** MySQL, Prisma ORM, RESTful APIs
- **Testing:** Jest
- **DevOps & Tools:** Docker, Git, GitHub, GitHub Actions, VS Code, Postman, Swagger
- **Frontend & Styling:** HTML5, CSS3, Tailwind CSS, Bootstrap

PROFESSIONAL EXPERIENCE

Cerebrox IT Solutions <i>Full Stack Developer</i>	Aug 2024 - Dec 2025 <i>Cagayan De Oro City, Philippines</i>
<ul style="list-style-type: none">• Developed and maintained full-stack features for a school management system using Node.js, Express.js, Prisma ORM, Docker, and CSS3, which improved system reliability and reduced feature rollout time• Designed and deployed a school evaluation system and implemented hotfixes for client-requested improvements, enhancing student assessment and reporting capabilities.	

Freelance <i>Full Stack Developer</i>	Jan 2024 - Present
<ul style="list-style-type: none">• Delivered custom backend solutions for clients by building scalable RESTful APIs with Node.js/Express, storing data in MySQL, and implementing role-based access control, using Docker for containerization and GitHub Actions for CI; this streamlined authentication and API deployment, reducing integration time for clients• Designed and deployed production-ready systems, including email notifications, Dockerized deployments, and CI/CD pipelines, ensuring smooth and reliable operations.	

PROJECTS

FindLy - Lost & Found QR Code Management System <i>Freelance</i>	Dec 2025 - Dec 2025
<ul style="list-style-type: none">• Implemented JWT-based authentication, role-based authorization, and RESTful APIs for item management, QR code generation, and purchase validation.• Integrated email notifications and Dockerized deployments with CI/CD pipelines using GitHub Actions.	

H&C Goldsmith <i>Freelance</i>	Jan 2025 - Mar 2025
<ul style="list-style-type: none">• Developed CRUD operations for inventory and order management using RESTful APIs with Prisma ORM and JWT-based authentication• Implemented database schema design, optimized queries, and Dockerized the backend for deployment.
